KTAXA

Health Communication Strategic Operating Framework

From transactional communication to decision-enabling communication, for customers and distribution

Executive briefing | CEO and Top Management

WHY DO WE NEED THIS?

Communication gaps create friction across the whole journey

CUSTOMER PAIN POINTS

- ? Misunderstood coverage and benefits
- ≠ Underwriting disputes
- ♥ Limited health awareness
- ⌖ Provider network confusion
- ✕ Claim rejection and unclear requirements
- ↻ Renewal dissatisfaction

DISTRIBUTION PAIN POINTS

- ? Inconsistent product understanding
- ≠ Difficulty explaining UW requirements
- ! Incorrect or outdated sales messages
- ✕ Difficulty explaining claim decisions
- ☎ High dependency on Operations for answers
- ↓ Lower confidence in customer conversations

BUSINESS IMPACT

More complaints and disputes | **Higher operational workload** | **Lower customer trust** | **Lower health service use** | **Poor customer experience** | **Lower retention and renewal** | **Weaker sales effectiveness**

Communication gaps create customer friction, operational inefficiency and lost business opportunity.

One unified ecosystem for informed decisions

PURPOSE Create a unified communication ecosystem that enables customers and distributors to make informed health and insurance decisions throughout the entire customer journey.

CUSTOMER OUTCOMES

- ✓ Understand products and coverage
- ✓ Understand UW and claim requirements
- ✚ Easier access to healthcare services
- ↗ Higher use of digital and health services
- ♥ Stronger health awareness and prevention
- ★ Greater trust and transparency

BUSINESS OUTCOMES

- ↓ Fewer complaints and disputes
- ☺ Better customer experience
- ↗ Higher health service utilization
- ↻ Better retention and renewal
- ★ More effective distributors
- ⚙ Better operational efficiency

STRATEGIC INTENT

Transactional communication → **Decision-enabling communication**

CUSTOMER JOURNEY

Communication supports every stage of the journey

1	2	3	4	5	6	7	8
Awareness	**Product selection**	**Underwriting**	**Policy ownership**	**Health management**	**Healthcare access**	**Claims**	**Renewal**
COMMUNICATE Build awareness of health needs and the brand	COMMUNICATE Understand product value and suitability	COMMUNICATE Understand disclosure and requirements	COMMUNICATE Understand coverage and benefits	COMMUNICATE Promote prevention and wellness	COMMUNICATE Know where, when and how to seek care	COMMUNICATE Understand claim process and requirements	COMMUNICATE Reinforce value received and coverage confidence
● Low health awareness	● Incorrect sales tools	● Underwriting disputes	● Misunderstood coverage	● Limited health awareness	● Network confusion	● Claim rejection	● Renewal dissatisfaction

Right message + **Right audience** + **Right timing** = **Better decisions**

STRATEGIC PILLARS

Five pillars organize every message we send

01 Health services and healthcare access

Raise awareness and use of available services: when to use, and how.

- TeleHealth
- Preferred provider network
- Emma
- Care coordination
- Second medical opinion
- When to use, how to use

02 Health awareness

Move customers from treatment to prevention.

- Cancer awareness
- Diabetes prevention
- Heart health
- Mental wellness
- Women's health
- Screening and vaccination

03 Terms and conditions

Close misunderstanding and expectation gaps.

- Covered benefits
- Exclusions
- Waiting periods
- Benefit limits, co-payment
- Pre-existing conditions
- UW and claim terms

04 Products

Improve product understanding and selling confidence.

- Proposition
- Coverage highlights
- Target segments
- Differentiation
- Value realization
- Customer use cases

05 UW, claim and complaint handling

Build trust through transparent decisions and clear contact routes.

- UW requirements
- Claim requirements, documents
- Claims journey
- Service timelines
- Complaint escalation
- How to contact us

BUSINESS OUTCOMES

What changes because of this framework

Communication → **Customer understanding** → **Behavior change** → **Business outcomes**

BETTER UNDERSTANDING...	...LEADS TO
Customers understand product value	Better retention and renewal
Customers understand coverage	Fewer disputes and complaints
Customers understand UW requirements	Better underwriting experience
Customers understand claim requirements	Higher claim submission quality
Customers understand claim decisions	Greater trust and transparency
Customers know how to access care	Higher healthcare utilization
Customers adopt preventive behavior	Better health engagement

EXPECTED BUSINESS IMPACT

- ✓ Higher trust
- ✓ Lower complaints
- ✓ Lower disputes
- ✓ Higher service utilization
- ✓ Better customer experience
- ✓ Higher retention
- ✓ Stronger distributor confidence

OMNICHANNEL ECOSYSTEM

One message architecture, many formats and audiences

CUSTOMERS
- Prospects
- New customers
- Existing customers
- Claim customers
- Renewal customers

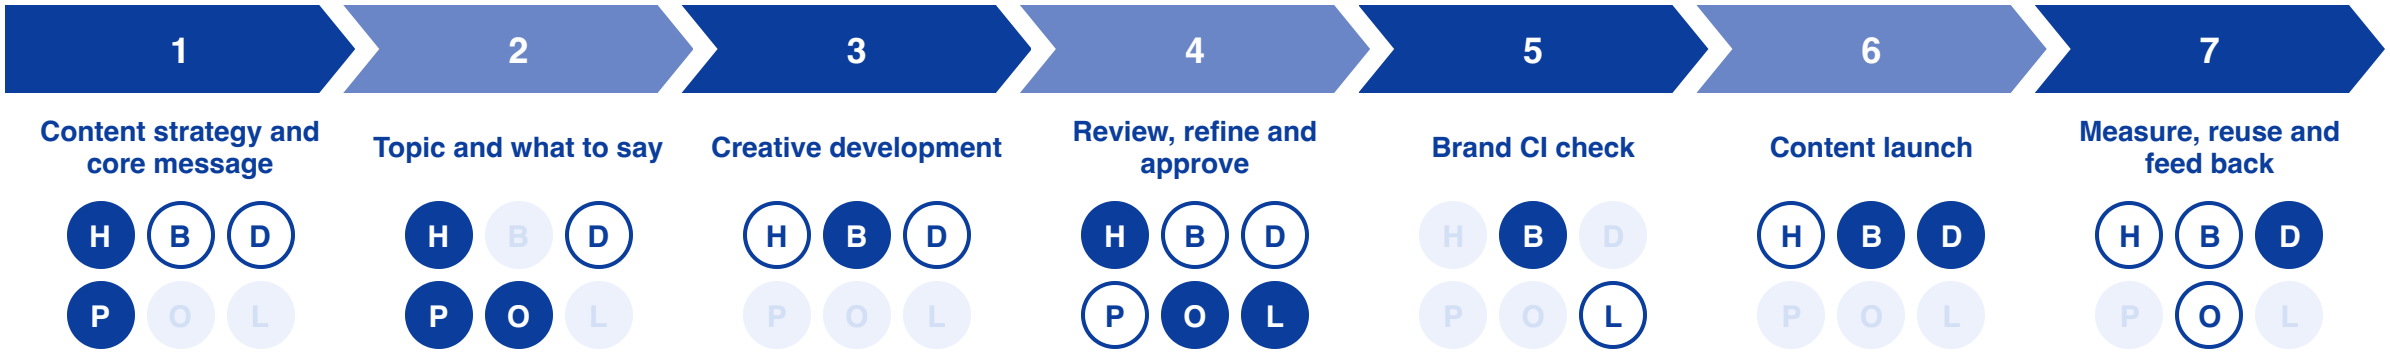

DISTRIBUTION
- Agents
- Unit managers
- Agency leaders
- Financial advisors
- Partners

EMPLOYEES
- Customer service
- Claims and UW
- Health teams
- Distribution support

GOAL	FORMATS	CHANNELS	BEST FOR
Awareness	Reels, shorts, social posts	Facebook, TikTok, Instagram, YouTube	P2 P4
Education	Infographics, articles, brochures	Website, Emma, LINE	P3 P4
Understanding	Explainer video, FAQs, guides	Website, app, agent portal	P3 P5
Action	Push notifications, reminders	Emma, SMS, email	P1 P5
Engagement	Webinar, live, podcast	Teams, Facebook Live, YouTube	P1 P2

One message architecture + multiple formats + multiple audiences

Who does what, from strategy to launch

Filled = lead Outlined = supports Faded = not involved I H Health Development · B Brand and Communication · D Distribution · P Product · O UW/Claims/Ops · L Legal

H — Health Development
Health strategy, health services, medical content

B — Brand and Communication
Creative, storytelling, brand CI, channel execution

D — Distribution
Agent enablement, field rollout, feedback loop

P — Product
Proposition, benefit messaging, selling points

O — UW, Claims, Operations
Process accuracy, requirements, FAQs

L — Legal and Compliance
Governance and regulatory review

Every piece of content works three times

Customer → **Distribution**

- Customer FAQs
- Claims education
- Common misunderstandings
- Service utilization stories

Customer → **Employees**

- Customer feedback
- Complaint insights
- Journey pain points

Distribution → **Customer**

- Product education
- Needs-based selling support
- Best-practice communication

Health communication is not a marketing activity.

It is a business capability that improves:

Customer understanding → **Better decisions** → **Better experience** → **Higher trust** → **Stronger retention and sustainable growth**
